2027 Oregon Logging Conference - Log Loader Competition - Official & Event Rules

Competitors must be employed or be an owner of an established logging company.

The sponsoring company must have competitors fully registered for the 2027 Oregon Logging Conference (OLC).

Sponsoring logging company to complete Official Competition Entry Form for each competitor.

All applications must be received at the OLC Office by **5:00 PM, February 10, 2027. Applications can be faxed to the OLC office at 855.866.0572 or mail to: Oregon Logging Conference, P.O. Box 10669, Eugene, OR 97440**

There is No Entry Fee - Entry forms will be reviewed by a committee of OLC Directors and Staff to choose qualified competitors. There will be a maximum of competitors to be determined by the Oregon Logging Conference.

All Qualifying Applicants' names will be drawn for a time to compete. Planned Event Times will be 11:30am - 3:30pm Friday, February 26 and 10am - 12 noon on Saturday, February 27, 2027, however event times may be changed or adjusted as needed by Oregon Logging Conference. Qualifying Applicants will be notified prior to the conference and given the Event Schedule. The Event Schedule will be posted at the conference.

Cash Contest Prizes will be awarded to the top three places over the two-day competition, based on shortest times including all penalties.

A maximum of 7 minutes will be allowed to complete the event task. The Event Official will signal the competitor to stop the run immediately.

Event Rules - Competitors, Event Officials, other participants, and spectators will be required to always maintain Safety First.

All Competitors will be required to **Check-In** with Event Officials not less than **15 minutes** prior to their assigned run time. Late Check in or No Shows will be disqualified.

Each competitor will be allowed 2 minutes of warm up time immediately prior to their scheduled event run time to familiarize themselves with the machine. During warm-up, the competitor cannot touch or move blocks used for the event. A warmup block will be provided. Competitors will begin warm up only upon a signal from the Event Official. Officials will signal when 2 minutes are up.

Movement of the machine tracks, either forward or backward during warm up or the event run are prohibited and will result in immediate disqualification.

Any competitor who in the opinion of the Event Official appears to be unable to maintain reasonable control or safe procedures will be disqualified and required to shut down the machine immediately.

There will be a Swing Arc Boundary marked on the ground. If the shovel boom crosses the boundary line a 10 second penalty will be added for each infraction to total time. If a block rolls outside the Swing Arc Boundary the competitor may retrieve the block, however a 10 second penalty will be assessed. Any block thrown, touching down outside the Swing Arc Boundary will result in an immediate disqualification and require the machine be shut down immediately.

The event starts with 9 wood blocks scattered randomly on the ground. The Heeling Rack of the machine will be at a predetermined Start / Stop location.

The Event Official will signal to the competitor that all is clear and may begin the run. Time will start when the heeling rack leaves the Start / Stop point and time will stop when the heeling rack contacts the Start / Stop point, ending that run. Hard landings, in the opinion of the Event Officials, of the heeling rack, will result in a 10 second penalty.

The object is to stack the blocks end to end starting at three predetermined marks on the ground, matching numbers, or colors. Each stack of blocks when complete will be three blocks high with colors and numbers matched. Colors and numbers not matching will result in a disqualification of that competitor. Each stack must be completed prior to starting another stack.

Each Stack must remain standing for 5 seconds after the heeling rack contacts the Stop / Start point, signaling completion of the event run. All three stacks must remain standing for 5 seconds or that competitor will be disqualified.
I (print competitors name) _____ have read and understand the Official Rules of the Oregon Logging Conference Log Loader Competition and agree to abide by these rules and the decisions of the Event Officials.
